INTRODUCING GATAC MANUFACTURE

POUE'ATHLĒNG E YAI AO'TO.'A'NG.AT'AK

Many Humans think of Xi'an culture as alien in every sense of the word. However, there are clear advantages to be gained from sharing advanced methods of starfaring. Gatac's first entry into the UEE ship market, the Railen, is an elegant interspecies commercial freighter built for both Human and Xi'an crews looking for a safe, reliable cargo solution.

Among the major houses of the Xi'an Empire, House Gatak maintains a special place in its history. During the Great Divide (a devastating civil war that nearly ripped the Empire apart), House Gatak served as a vassal to House Ru'a, building and maintaining vehicles and spacecraft integral to its logistics operations.

HOUSE GATAK

YI'UA SE NG.AT'AK

When House Kl.ō, reeling in the conflict of the Great Divide, engaged in a misguided act that poisoned the atmosphere of Xi'an homeworld RyiX'yan, three Gatak elders perished alongside Ru'a's leaders. When the dust finally settled, and Ru'a was made the first Xi'an Imperial House, Emperor Ya.l'ē se Ru'a honored House Gatak for its service and sacrifice, awarding it exclusive rights to build industrial spacecraft for the Empire into perpetuity.

Today, House Gatak (via Gatac Manufacture) celebrates its first foray into the human market. Utilizing patented grav-lev technology and time-tested traditional designs updated for 2951 and beyond, the Railen is a prime example of why the Xi'an Empire has trusted House Gatak to produce its industrial vessels for centuries.

INTERIOR

Unlike anything seen in Xi'an or Human ships before it, the Railen's convention-defying interior changes the game when it comes to synergy between Xi'an and Human hauling concerns, from the creative employment of traditional Xi'an grav-lev tech to innovative facilities that accommodate interspecies crews.

HUMAN & XI'AN FACILITIES

For this Human-market debut, Gatac has ensured every part of the Railen is accessible to both Xi'an and Human crew members, creating a functional testament to the power of collaboration and a spiritual embodiment of the heights that can be achieved through interspecies harmony.

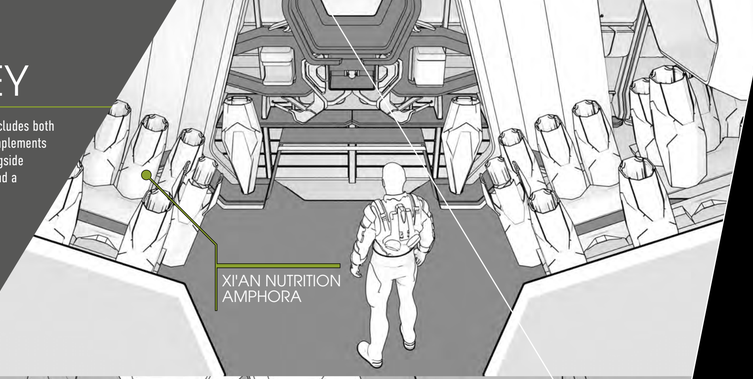
Designed to effortlessly accommodate both Xi'an and Humans, the Railen's revolutionary living spaces allow for mixed crews to travel in comfort, even on extremely long hauls. From component access to on-board facilities, the Railen spares no comfort in exchange for convenience.

SLEEPING PODS

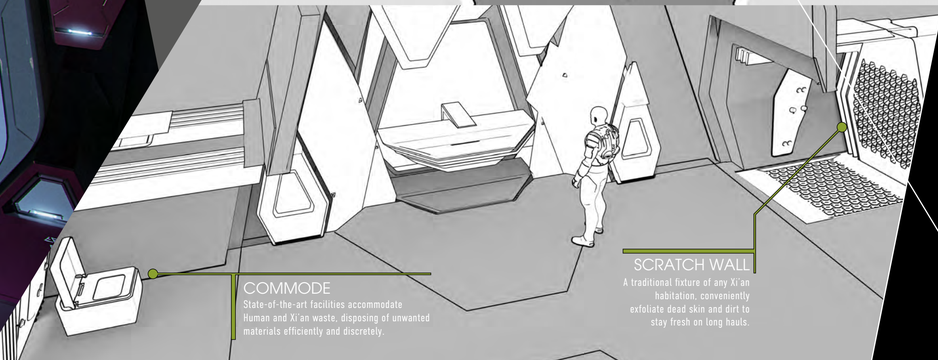
Adaptable sleeping pods feature a retractable bed, allowing for easy conversion between Human and Xi'an use.

GALLEY

A fully loaded galley includes both refrigeration/heating implements for Human cuisine alongside fermentation vessels and a growth wall for Xi'an gourmands.



XI'AN NUTRITION AMPHORA



COMMODE

State-of-the-art facilities accommodate Human and Xi'an waste, disposing of unwanted materials efficiently and discretely.

SCRATCH WALL

A traditional fixture of any Xi'an habitation, conveniently exfoliate dead skin and dirt to stay fresh on long hauls.

UN.RO'SÉNG

WEAPONS

A comprehensive offensive configuration featuring quad missile racks and two manual turrets (each supporting both Human and Xi'an operation) means that, should the situation turn dire, the Railen won't find itself outgunned.

The built-in missile racks utilize a unique traditional Xi'an design, concealing the racks themselves to enhance both tactical deception and elegance of form. Each turret comes factory equipped with dual Size 4 weapons.

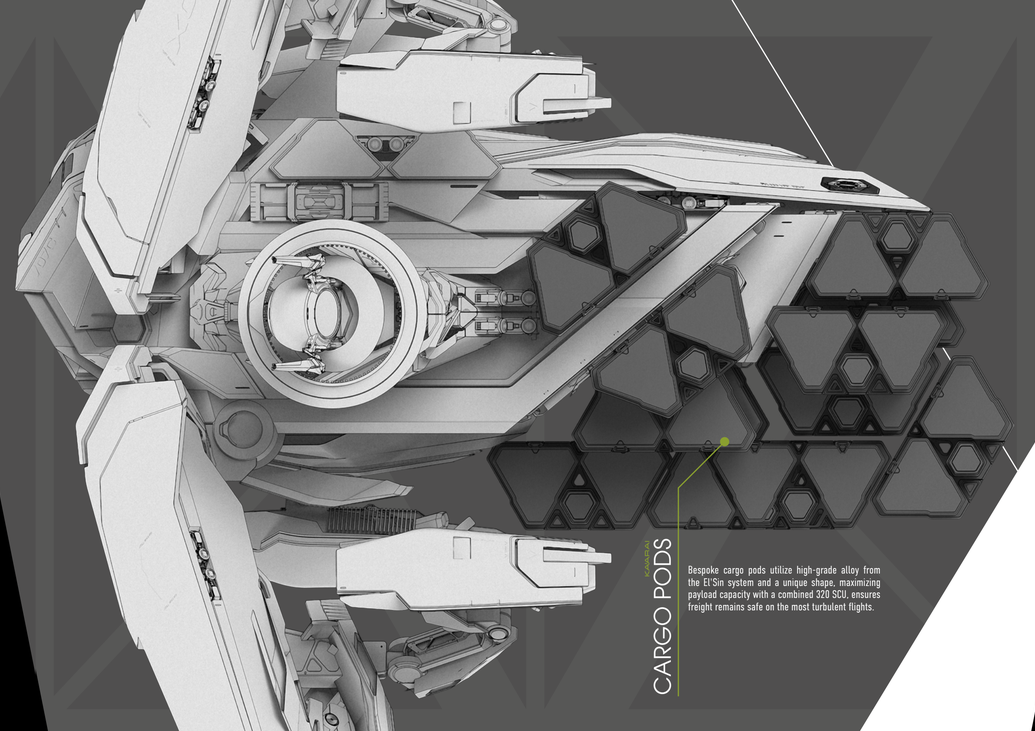
CARGO

Gatac has been perfecting the art of industrial freight transport for centuries. The distinctly diverse silhouettes created by Gatac ships and their myriad cargo configurations are a common sight to anyone who has traversed the Xi'an Empire. Now, they will become familiar in the star systems of the UEE too.



CARGO PODS

Bespoke cargo pods utilize high-grade alloy from the El'Sin system and a unique shape, maximizing payload capacity with a combined 320 SCU, ensures freight remains safe on the most turbulent flights.
